MORE OF THE MINERS' CASE.

Further Argument for a New Trial—The Bench May Not Grant It.

Chief Justice Begbie and Justices Crease and McCreight again sat as a full bench to day to further consider the case of the six weeks imprisonment. Mr. Chas. Wilson, assisted by Mr. Belyea, has been striving to obtain a new trial, and had diligently searched the law books to find some loophole for the escape of his clients. His main objection was that the commission of oyer and terminer had terminated at the time of sentence, and had no authority to sentence. The chief justice held this was correct. Other points of complaint were brought up by Mr. Wilson, but many of them were overruled by the bench. Exhaustive extracts were made from the law reports pro and con in the matter. The bench pointed out that the judges were in no way bound by the decisions of the text books, but were rather the sources from which the text books were obtained.

Mr. Wilson in claiming his right for a new trial, held that while he could not claim an unjust trial, although he submitted that it was an irregular one, he claiming that the jury panel had not been properly drawn, as one of the jurors was spoken of in the record as Thomas J. Burns, and in another place as "the said J. T. Burns." The bench did not sustain this contention, holding that the expression "the said Burns" covered any errors in the initials. The person was the same and a legal juror.

The chief justice said the contention of Mr. Wilson was a rather far fetched one. The chief justice desired it to be known that when a judge took his seat on the bench he did not part altogether with common sense, and was not a fool or idiot, and must consequently be sustained in the decision that T. J. Burns and J. T. Burns was one and the same person. Common sense was to be considered in this instance. Unless it could be affirmed that there were two different men called on the jury who had the initials, the objection could not be sustained.

Another objection raised by Mr. Wilson was that certain irregularities had occurred after the jury had retired to consider their verdict, as the jury had again come into court and asked a question concerning the case, during which time the attorney-general had said that if the prisoners were brought in on this charge a *nolle prosequi* would be made in the other indictment.

The bench held that this was not illegal. A wrongful act of a judge could be taken as a basis for a new trial, but not the act of a counsel. Consequently the contention would not be upheld.

Mr. Wilson further held that as there was but 44 names on the jury list, it did not give a sufficient number to allow of the right of challenge being exercised in the case of each prisoner.

The chief justice had held that the number was sufficient, as the act said not each person but each "party" had the right to challege 14 jurors.

Mr. Wilson further held that the tales clause did not apply in criminal cases. The bench held differently and quoted the act to sustain it.

Mr. Wilson objected on several other points, and for several hours an argument unintelligible to those not familiar with legal phraseology ensued, which was ultimately ended by the judges reserving their decision until Monday the 6th of April.

Britain Will Take Part.

LONDON, March 26.—The Foreign Office formally notified American Secretary of State Blaine that Her Majesty's Government accepts the invitation extended by President Harrison to take part in the world's Columbian Exposition at Chicago in 1892. In a note accompanying the letter of acceptance, Lord Salisbury notifies the president that a royal commission will be appointed to assist in forwarding the interests of British exhibitors.

INTERESTING NEWS FROM THE DIFFERENT STATES.

Prof. Rook of Portland Looses His Stock of Bogus Bills—The Consul General from Peru Has a Slave Girl in His Employ—General News.

PORTLAND, March 25.—Professor Rook, who makes a business of teaching people how to detect counterfeit greenbacks, is in trouble. Special Agent of the Treasury Mulkey came over from Port Townsend and yesterday seized and carried away all the counterfeit bills which Professor Rook uses in his business. The collection comprises every kind of counterfeit greenbacks ever issued, the face value of them being about $13,000. The collection, it is claimed, owing to the time and money spent in making it, and its necessity to Rook in his business, is worth $3,000. Such teachers are allowed under certain restrictions in regard to registering the counterfeit notes, and by obtaining an authorization from the secretary of the treasury to have counterfeit bills in their possession. Rook has such a document, and leading bankers and business men have vouched for his good character, but it appears some new law has been made affecting his line of business, and he has not complied with its requirements, wherefore Mulkey has carried off his bogus bills. Rook threatens to carry the matter to the court, but his friends say he will get the property back in time without making trouble.

A Wealthy Company.

NEW YORK, March 26.—The Honduras Lumber Company, composed of American capitalists, has been formed here with a paid up capital of $2,000,000. The company, of which C. Sherman Wynn is president, possesses a stumpage of 200,000 acres of land on the Atlantic coast, about 100 miles east of Truxillo, in Honduras, and has the privilege of working it 25 years free of taxation. The wood on the property is valued a $7,773,000, and consists of ebony, sandalwood, mahogany and sapodilla pine and other kinds. Mills will be erected in a short time which will turn out 1,000,000 feet of lumber every day, and in connection with the mills furniture will be manufactured. Everything manufactured or milled will be shipped to South American cities as far south as Buenos Ayres, and also to Europe. The following are among the directors: Hon. J. M. Baily, chief justice of the Illinois supreme court; M. B. Insley, of the Leavenworth Cattle Company; E. W. Perry, governor of the territory of Masquita, in Honduras, where the company's plant is situated, and A. C. Becksbash, president of the Chicago Coal Exchange.

Copying Miss Gayton.

DANBURY, Con., March 26.—A young woman, partly destitute of clothing, was seen tramping about the green square which surrounds the monument of Garfield as though her life depended upon it. She carried a brick in one hand and a large stone in the other. Her discarded garments lay upon the ground by the monument. A crowd quickly gathered, attracted by the unusual spectacle, but no one interfered with her, and for two hours she kept up the tramp around the monument, until a policeman took her into custody. The young woman was Miss Lillian Eberts, well known and highly respected here. She was suffering from a sudden attack of insanity. "Don't you see," she said to the policeman, "my neck is broken; my little brother did it." Miss Eberts was taken to her home, where she is violently insane. No cause is known for her sudden derangement.

An Artist Goes Insane.

NEW YORK, March 26.—Ralph Blakelock, a wealthy artist, living at 118 Milton street, Brooklyn, has become insane and last night an attempt was made to have him cared for in St. Catharine's Hospital from which he was turned into the street. Mr. Blakelock has been acting queerly for some time and his brother Dr. Blakelock of Bedford avenue, has been living in the house to attend him. Yesterday he became so violent that according to the members of the family, he destroyed $500 bills, burning them in the fire and sold an oil painting, valued at $4000 for $250. An officer took him to the police station, where Dr. O'Reilly, of Eastern district hospital, was summoned and took him to St. Cartharines hospital.

Miss Gayton's Long Tramp.

NEW YORK, March 26.—Miss Zoe Gayton, who has until April 9th to finish her walk from San Francisco to New York, arrived in Peekskill yesterday morning after an eighteen mile tramp from Fishkill. She will walk to Irvington to-day, a distance of 22 miles. She is expected to arrive at the central depot about 4 p. m. Manager Marshall, who has accompanied Miss Gayton throughout her long walk, says the lady is considerably worn out, and complains greatly of neuralgia. When she left San Francisco her weight was 162 pounds, and a day or two ago at Rochester she weighed 137.

The Alton Will Pay Commissions.

CHICAGO, March 26.—Circulars were sent out to the agents of all connections of the Alton railway, contradicting the report which appeared in a morning paper stating that general passenger agent Charlton, of the Northern Pacific, was working with, general passenger agent Ford of the Pennsylvania to bring about the abolition of payment of commissions. The attitude of the Alton road on the commission question is the same to-day as it has ever been. That road is first, last and all the time in favor of the payment of commissions, and will continue to pay them irrespective of what other railways and associations may do.

A Heavy Failure.

PHILADELPHIA, Pa.—J. Whitney & Sons, car wheel manufacturers, are financially embarrassed. The car wheel works were founded by Asa Whitney in 1848. The works flourished and did an immense business. The founder died in 1874, possessed of over a million dollars. Since then the business has been conducted by his sons. Last year the rating of the firm was cut down to between two hundred and three hundred thousand, but their credit was good at those figures.

A Little Slave Girl.

NEW YORK, March 25.—The agent of the Children's Society brought a South American slave named Marie Devinicie, 14 years old, before Justice Divver at the Harlem police court this morning. She had been bought from her parents in Peru for $300 by Consul-General Quitana, of Peru, who placed her in service with his family in this city nineteen months ago. Marie, through an interpreter, told the court she had been shamefully beaten by Mrs. Quitana last night and left the house. Quitana, who was in court, said he was willing to send the girl back to her home in Peru. The magistrate placed the girl in the care of the Children's Society for further investigation.

Deserved Promotion.

TOPEKA, March 26.—W. M. Mitchell, a conductor, in the employ of the Santa Fe, was to-day elected railway commissioner by the executive council to succeed Judge Jas. Humphrey. His election is the result of a demand made by the railway employees of the State. He has been working on the railway for 20 years as brakesman, fireman, station agent and conductor.

Plain Spokane.

SPOKANE, March 25.—In the city election to-day there were four tickets in the field. D. B. Fotheringham was elected by 200 to 300 plurality. The new charter was adopted by a large majority, and the official name of the city was shortened to Spokane, "Falls" being dropped.

An Ex-Minister Dead.

LANCASTER, Pa., March 26.—Dr. P. Mickersham, aged 63, died here to-day. Under President Arthur's administration he represented the United States at Denmark.

Prominent Attorney Dead.

CINCINNATI, O., March 26.—Hon. Rufus King, a prominent attorney of this city, is dead, aged 54 years.

A Bad Society Man Caught.

HALIFAX, N. S., March 25.—Mr. Tanner, late United States consul at Pictou, who fled from the province to escape prosecution on a charge of attempted assault on a little girl, has been arrested in Boston, and it is said will be brought back for trial. He was a promenent society man while at Pictou, but one day inveigled into his office a little daughter of a well-known citizen, with whom he took improper liberties. He was severely beaten by the father, but soon after left when prosecution was inaugurated.

WHARF AND WAVE.

Jottings of Interest to Marine Men Concisely Compiled.

The bark Titania arrived in London 125 days from this port.

Steamer Hope is on Clarke's ways for overhauling and repairs.

Capt. Marshall, nautical adviser of the Union Line, will leave in the Batavia for China.

Geo. B. Dodds, manager at Hongkong of the C.P.R. steamers, will also be a passenger on the Batavia.

Capt. Urquhart goes over to Vancouver to-morrow to pilot the Batavia, which leaves for China.

The steamer Alert will leave for Clayoquot on Monday with supplies and letters for the sealing fleet.

The Empress of India is due at Victoria on the 27th of April. She will call at the outer wharf, where her passengers will disembark.

The bark Formosa, Capt. Kane, has completed loading lumber at Hastings sawmill and has cleared for Eureka, Chili, with 702,000 feet of lumber, of which 180,000 feet is dressed flooring.

The dimensions of the steamer to be built for Capt. Rogers will be as follows: 174 feet over all, 157 feet keel, 32 feet wide, and 10 feet deep. The engines, which will be very powerful, will be supplied by the John Doty Company of Toronto.

It is stated that the price paid for the steamer West Indian when she changed hands last was £3,000, about $15,000. There is a good deal of disparity between the price of the boat and her size and appearance. One of the small screw steamers here cost about twice the sum paid for the West Indian.

How Luck Indeed.

At a social gathering a few evenings ago, the conversation turned upon luck, a gentleman remarked: "All this talk about 13 being an unlucky number is sheer nonsense. What, for instance, is luckier than helping 13 trumps at whist?"

"Humph," replied another gentleman, "I held a 13-trump hand once and didn't make more than one trick with it."

"How could that be?"

"Well, you see, my partner was somewhat hot-tempered and when I trumped his ace he jumped up and threw me out of the room."

NO CHARGES MADE ON STEAMERS FOR ROYAL TRAVELERS.

Italy will Demand Satisfaction for the New Orleans Affair—What Was Done With the Guelph Funds—Ambassadors Consulting the Czar.

LONDON, March 26.—The question asked in Parliament by Mr. Labouchere relative to the hire of steamers between Great Britain and the continent for the conveyance of distinguished persons, has brought out the interesting fact that no charge whatever is made for such conveyance, but that on the contrary the various steamship lines are eager rivals for the honor of carrying royal and princely personages without any charge whatever. It is said that at least one of Queen Victoria's impecunious German sons-in-law has turned a quiet penny by favoring a certain line of boats in his journeys between England and the continent, his arrangement, or implied understanding with the company, being that he shall make himself and the princess as conspicuous as possible during the voyage, thus advertising the steamship lines, and attracting passengers, and that a special douceur was exacted for the presence of passengers in the saloon while the prince and suite were at meals. At any rate, whatever the truth of these reports, certain it is the charges for conveying princely personages no longer appear in the estimates, and it is equally certain that they don't pay their way themselves.

GERMAN VICTORIES DUE TO NUMBERS.

A work written by a German officer, Major Kunz, on the campaign of the Austrian Marshal Radetzky, in Italy, has evoked considerable comment in Berlin and Paris. In his introduction Major Kunz says that the victories achieved by the German armies in the campaigns of 1866 and 1870 were mainly due to superior numbers, and he compares this fact with Radetzky's victories won with greatly inferior numbers. The statement about the German victories has been received with unfavorable criticism in Berlin military circles, where it is claimed that the Germans owed their success to other causes than superiority in number of troops.

MAKING A LIVING OUT OF IT.

A dispatch from St. Petersburg tells of a new industry which is acquiring considerable development in Russia—that of conversion. It appears that the Russian government, not being willing to trust only the theological arguments and penal laws offers a reward to all Jews who become Christians. The consequence is that a number of Jews, deprived, by the severe enforcement of the decrees against their race, of the opportunity to make an honest living, have entered on the practice of being converted at regular intervals and receiving each time the government bounty of fifteen roubles. One Hebrew named Schwortzkopf has been at last detained after seven different conversions in as many different localities. It happened that the Russian priest to whom he made known his desire for the seventh time for baptism and the fifteen roubles, had been recently transferred from Ebzabethgrad, where the convert had been baptized and rewarded only about two months before. Consequently Schwartzkopf will undergo no more conversion for the present, as the police have him in hand. A number of similar instances have been reported, and as a result the authorities have been reported, and as a result the authorities have been instructed not to pay the rewards unless they have investigated the antecedents of the converts.

THEATRICAL SCENERY NOT PAINTINGS.

A jury at Manchester has decided that theatrical scenery cannot be called "paintings" within the meaning of the law that exempts a railway company from liability for damage to paintings shipped without certain precautions. Consequently the Bolton Theatre Company have recovered £120 damage from the North Eastern Railway.

CONSULTING THE CZAR.

Both the Russian ambassadors to Vienna and Berlin are in St. Petersburg in consultation with the Czar.

WILL EXACT SATISFACTION.

A Rome dispatch says that the Italian Government is concerned at the growing drain on the military strength of the kingdom, and that a measure will probable be introduced in the chambers to prevent able-bodied males from immigrating until they have served in the ranks. It is also stated that the government is determined to exact satisfaction for the killing of the Italian subjects in America and that the statement of the Governor of New Orleans is not satisfactory.

HELD RESPONSIBLE.

A decision of the court of appeals holds Justin McCarthy, Herbert Gladstone, and some others liable for seven thousand pounds due by the Irish exhibition of 1888, to the bankers, Coutts and company.

THEY USED THE MONEY.

A Berlin correspondent states in connection with the rumors about the Gaelph fund that a considerable sum of money was advanced to the present Kaiser out of the fund about five years ago for private purposes of his own, and that he was never asked to make an accounting. It was at a time when the present Kaiser and the late Prince Rudolph of Austria were fast friends, and indulging in a good deal of extravagance, and it is understood that William used a portion of the money lost in this way. The advance was made at a time when Bismarck and William were on better terms than ever before or since, and it is said that Bismarck has in his power written evidence of William's gratitude for the favor.

"It leads them all," is the general reply of druggists when asked about the merit or sales of Hood's Sarsaparilla.

THE LEGISLATURE.

A Day of Slaughter Among the Private Bills —Mr. Hunter's Game B'l.

The following bills were read a second time:

Nicola, Kamloops & Similkameen railway bill.

Liverpool & Canoe Pass railway bill.

Vancouver & Lulu Island railway bill.

Vancouver, Northern & Alaska railway bill.

Hot Springs & Goat River tramway bill.

Municipal bill.

Free Libraries bill.

Toad Mountain & Nelson tramway company.

Okanagan Land Development company.

The Chilliwhack railway bill and that regulating the gift or sale of tobacco to minors were read a third time.

The following reports were adopted: Vancouver water works; the railway bill; Nicola Valley railway company; Ashcroft & Cariboo railway; Kootenay Lake Telephone company; Burrard Inlet Railway & Ferry company.

The house went into committee on the University bill, Mr. Semlin in the chair. The only amendment of importance made was that to section 13, dispensing with all religious tests being applied to professors, graduates or students.

The bill was reported complete with amendments.

The house went into committee on the bill to incorporate the Nanaimo Electric Tramway Company, Limited. The committee reported the bill complete without amendments.

Hon. Mr. Davie introduced an act to amend the constitution act, and an act to amend the civil service act, both of which were read a first time.

Mr. Hunter moved the second reading of the game bill. He referred to it as the most important bill of the session, and felt sure, from the flattering assurances of support which he had received, that it would readily pass its second reading. His object in introducing it was to amend that on the statute at present, and to prevent the indiscriminate slaughter of the inhabitants of our woods and forests.

Mr. Hall pointed to the fact that there is already a very good and a recent measure on the books now protecting birds and animals throughout the country. He himself would have no objection to the bill if the legislation proposed were confined to a certain number of miles round the centres of population, but he failed to see the use of legislation extending to places where it was not within the power of the law to carry it out. Mr. Hall moved that the bill be read a second time this day six months.

It was evident that the house was opposed to the bill, but the members treated it good-naturedly, and some humorous discussion ensued.

Mr. Croft promised it 22 amendments, Mr. Davie, Mr. Pooley and several others had similar intentions towards it, and finally the amendment was carried.

Hon. Mr. Turner brought down the estimates, which were laid on the table.

The house rose at 11 o'clock and adjourned till Tuesday.

NOTICES OF MOTION.

Mr. Sword—On report of assessment act: To add to section 8 "And the amount of mortgages assessed on any property shall be deducted from the assessed value of such property."

Mr. Sword—In committee of the whole on B. C. dyking bill, to move the following new clause: "The company shall commence actual construction within one year, and complete the works authorized by this act (except so far as relates to draining Sumas lake) within three years after the passage of this act."

Mr. Martin—To move in committee of the whole, that section 3 of the Nicola, Kamloops & Similkameen Railway Company bill be struck out, and the following inserted: "The said railway company, their agents and servants, shall have full power and authority to survey, lay out and construct, lease, purchase and operate, a single or double line of railway, of a guage of four feet eight and a half inches, from a point at or near the western extremity of Nicola lake, where the terminus of the Nicola Valley R.R. shall be located; thence to the town of Princeton, and thence by way of Similkameen river as far as may be deemed advisable to Osoyoos lake; also from a point near the junction of the company's railway with the Nicola Valley R.R. Co.'s terminus at Nicola, in a southerly direction past Nicola and Stump lake to the South Thompson river at the same point to the eastward of Kamloops."

Mr. Beaven—On consideration of an act respecting the University of B. C., to amend section 13 by adding: "No religious test shall be required of any professor, tutor, lecturer, teacher, student, officer or servant of the university, nor shall religious observances, according to the laws of any particular religious denomination or otherwise, be imposed on them or any of them."

Mr. Kitchen—To introduce an act to declare valid certain by-laws passed by the Municipality of the municipality of Surrey.

A Childless Home.

Smith and his wife have every luxury that money can buy, but there is one thing lacking to their happiness. Both are fond of children, but no little voices prattle, no little feet patter in their beautiful home. "I would give ten years of my life if I could have one healthy, living child of my own," Smith often says to himself. No woman can be the mother of healthy offspring unless she is herself in good health. If she suffers from female weakness, general debility, bearing-down pains, and functional derangements, her physical condition is such that she cannot hope to have healthy children. Dr. Pierce's Favorite Prescription is a sovereign and *guaranteed* remedy for all these ailments. See guarantee printed on bottle wrapper.

A TEUTONIC JOKE.

How an Aeronaut and a Fat Landlord Humbugged the Public.

A baloon ascension without parallel in German aeronautics took place near Stockerau recently. The day before Joseph Strohschneider, aeronaut and rope walker, had announced that he and Carl Pramper, the landlord of the village tavern, "To the White Rose," would ascend on the following afternoon.

Now, everyone knew that Strohschneider rode only on a trapeze in all his ascents, and that Pramper was not an expert on this apparatus. Moreover, Pramper was thick set and had a family. The recklessness of the undertaking was so apparent that the police were at once appealed to by Pramper's wife and friends, and he was officially forbidden to make the ascent. The police failed, however, to take measures to enforce this order, and so the next day Pramper appeared with Strohschneider on the platform before the assembled population of the district for miles around, who had heard of the daring feats promised by the aeronaut and the "White Rose" landlord.

As the balloon was being filled a great hue and cry was raised against Pramper's ascent, and the crowd eventually became so turbulent in its demonstrations that Strohschneider had to make haste to escape being mobbed. Only Pramper was cool. When the balloon was ready he retired to a little lean-to, reappeared a minute later in aeronaut's costume, and then, with a white face and shaking limbs, shot up on the trapeze with Strohschneider.

There were shouts of execration. Mrs. Pramper and her two daughters fainted, and every one else watched in horrified suspense the soaring balloon. It slipped away towards Leitzersdorf. The crowd pushed madly along under it, running, riding, driving, and all shouting vainly for Strohschneider to descend, for Pramper was seen to be losing his courage, and his legs and arms were dangling nervously over the ropes of his perch.

Half-way between Stockerau and Leitzersdorf the hurrying crowd could see that Pramper and Strohschneider were quarrelling. The gestures of the aeronaut became more violent, till he eventually struck his companion a blow in the face, and toppled him off from the trapeze. The figure of the landlord came whirling down. The crowd gave one great groan of horror, and then was still. When the body struck, all except the fainting women hurried to the spot. The mutilated, bleeding, and almost unrecognizable remains of Pramper were not there—only a very cleverly made effigy of him, dressed in his every day clothes. Strohschneider had stripped the landlord to clothe the effigy in the little lean-to at Stockerau, and the portly landlord, instead of having endured all the horrors of an aerial life-and-death fight, was sitting in his underclothes in Strohschneider's draughty dressing-room, anxiously awaiting the return of his proper garments.—New York Sun.

CAN YOU TELL ME WHY?

TO THE EDITOR:—Can you tell me why the "gods" at the theatre are allowed programmes when they persistently take them into halls and throw them on the heads of the audience beneath? Can you tell me why they smoke during the intervals making the people in the dress circle who object to the smell of tobacco very uncomfortable? Can you tell me why they are allowed to expectorate tobacco juice from the gallery into the dress circle? Can you tell me why they are allowed to drink out of bottles and pour some of the contents into the laps of people beneath? These are facts, I saw the last named at the theatre, the first performance of the "Sea King." Can you tell me why gentlemen are allowed to light their cigars going down the stairs from the dress circle, and puff smoke in the faces of people behind? Can you tell me why the hackmen are still allowed to use Government street for a stable and parade ground?

The other day I noticed a young lady who had to stop her horse for about five minutes, because as every one knows the new building and the [illegible] take up one-half of Government street, near Fort; a dray turned lengthways occupied the other side, and a hackman who was in the middle of the road, facing the lady, refused to move. I do not think Mr. Garnet would be guilty of such meanness, for I have always found him most courteous, but there are many others who would, and do, when women and children are waiting to cross the roads, do not try to bring their horses out of a walk. And finally, can you tell me why the stains are cleaned out and the refuse allowed to lay for five or six days (or perhaps longer, for it has not been taken away yet) before the dump [illegible] ten times worse than if left where it originally was. ACTUALLY SEEN.

CARIBOO POLITICS.

TO THE EDITOR:—Elections are certainly a God-send to Stanley, as without them we would not see a strange face from one year's end to the other. This election, the results of which is still pending, has brought about the strangest result as far as one strange face goes, the owner of which is Mr. Barnard, whom we haven't seen since his last election, notwithstanding his promise then to visit us every year. We have ourselves to thank that we have had him this time, as on nomination day he was at Kamloops. On the same day Dr. Watt was on his way to Quesnelle mouth on a professional visit. A few of us happened to be in Stanley when the stage came in from Barkerville, and were under the impression that the doctor was already in the field. But it soon appeared that he was not, and although he has plenty of supporters at Barkerville, no one seemed to care to take a leading part in bringing him out; and as the doctor contended the "office should seek the man, and not the man the office," it remained for Stanley to persuade him that he was losing a splendid chance. The fact that the doctor was booked to Quesnelle on the stage, and had to return to Richfield, fifteen miles, on horseback, and had only two minutes to spare in getting in his nomination papers, will prove that there was no preconcerted arrangement as is asserted by his opponents. The doctor had a most enthusiastic meeting here on the 6th March, when all but one pledged themselves to support him, and bravely stuck to their word at the polls yesterday, Mr. Barnard getting only one solitary vote. On Tuesday evening last we had the both candidates face to face. Mr. Barnard spoke first for one hour and twenty minutes, and Dr. Watt in replying occupied the floor for one hour and 35 minutes, showing himself to be thoroughly *au fait* on the subject of Canadian politics, and very satisfactorily disproving all Mr. Barnard's personal charges. Amongst other remarks, after the doctor had concluded, Mr. Barnard stated that he realized that he was in the "enemy's camp," but everyone present will bear me out in saying that he had as fair a hearing as his opponent.

There seems to have been a deal of bitterness shown by Mr. Barnard's supporters in this contest, which I think is entirely uncalled for, as this is an occasion when everyone should consider himself, and act as a free agent; even the officials at Barkerville, who have hitherto enjoyed a large measure of public popularity, and have, so far as I know, always held themselves aloof, as they should, in the matter of politics, in this contest have shown themselves to be only "common clay." Truly yours, GOOD OLD LIGHTNING CREEK.

Stanley, March 20, 1891.

If Your House is on Fire

You put water on the burning timberr, not on the smoke. And if you have catarrh you should attack the disease in the blood, not in your nose. Remove the impure cause, and the local effect subsides. To do this, take Hood's Sarsaparilla, the great purifier, which radically and permanently cures catarrh. It also strengthens the nerves. Be sure to get only Hood's Sarsaparilla.

Tourist Spoons and Opera Glasses.

Mr. A. A. Clayton, of the Diamond Palace, Government street, has now completed and ready for inspection, a large stock of tourist spoons, suitable for souvenirs of Victoria. In the bowls of the spoons are etched scenes of the Gorge, Dunsmuir Castle, Mount Baker, and other pictures of Victoria scenery. He has also just received a consignment of beautiful opera glasses, in pearl and Russia leather, which are pronounced the finest ever imported to this city.

A BY-LAW

To Establish the Grades of Streets Within the City of Victoria.

Whereas it is expedient to establish the grades of certain streets, avenues and walks within the city of Victoria

Therefore be it enacted by the Mayor and Aldermen of the Corporation of the City of Victoria as follows:

1 From and after the final passage of this by-law the grades of the streets, avenues and walks set forth in the schedule hereto shall, at the points set forth in the first column of the said schedule, be at the elevations set forth in the second column of the said schedule, and that between the different points mentioned, where the grade is specifically fixed, the grade shall be uniform and true subject to clause 3 hereof.

2 Elevation shall mean the height above datum which is 100 feet below mean high water mark.

3 Wherever it may be deemed necessary, expedient or convenient, the grade Commissioners, for the time being, may establish any point or points as the grade along any of the streets mentioned in the schedule hereto intermediate between the point of intersection of the centres of said streets, or any of them, and thereafter the grade along said streets or any of them as aforesaid, shall be uniform and true between the centre of intersection of the streets or any of them, in the schedule hereto and the point hereafter to be established along said streets, and in case more than one point be established, then the grade shall be uniform and true between each of the said points.

4 Any person owning or occupying or having an interest of any kind in any lot abutting upon any street in the City of Victoria, may at any time after the passage of this by-law apply to the Corporation of the City of Victoria for the grade of that portion of the street fronting his lot and it shall thereupon be the duty of the said Corporation, upon payment of the sum of five dollars, to cause such grade to be given in accordance with this By-Law.

This By-Law may be cited as the "Streets Grade By-Law 1891."

Passed the Municipal Council the 18th day of February, A. D., 1891

Reconsidered and finally passed this 18th day of March, A. D., 1891.

PAWS: Pause a moment before you throw money away by paying too much for your Spring Clothing, or, what is more aggravating, buying a suit so ugly that you get mad at yourself every time you look at it. You won't do this if you strike the right place. One swallow does not make a Summer, nor does a dozen suits make a Clothing Store. We've got more stock than any other Clothing Store can show you, and our prices are as low as our stock is large.

Boys' Suits from $2.00 up.

Men's Suits from $5.00 up.

The finest range of Neckwear in the city.

We are closing a line of Mackintoshes at from $7 to 11; they all go for $5.

Men's Pants from $1.50 to $6.50.

In fine goods we have exclusive lines made to our own pattern and equal to custom made goods; prices $5.50, 6.00 and 6.50, same goods custom made $9, 10 and 11.

About 10 dozen of our $1.00 all wool overshirts still on hand. Come and see us.

DOES VICTORIA REQUIRE RAILWAY COMMUNICATION?

It was scarcely expected that Mr. DE COSMOS' meeting would prove a complete fiasco, but such was the case, and we might properly dismiss the matter by saying that Mr. DE COSMOS as a committee of one on "public safety" is a dead letter. Since, however, the subject of further municipal indebtedness in relation to railway communication has been brought up, it may be worth while to briefly discuss it. The question has two sides, no more, no less; there are no "ifs" and "ands" about it. Does Victoria want railway communication with the outside world or not? That is the question. If she does, she ought to be willing to pay something for it, for the fact cannot be disguised that she is not easily accessible by rail, nor yet as close to the coast as could be wished. The tendency of railways is to seek the coast. Let Victoria be given the go-by, and she cannot by any manner of means become a commercial centre. If, on the other hand, with this fact staring Victoria straight in the face, she does not want railway communication; if real estate owners are willing that the city should vegetate; become a resort for valetudinarians and mossbacks, their course is clear. No scheme for running the city in debt can mature without their consent.

But Victoria will not say that she does not want railway communication. The element in the city which would vegetate is in the minority. Mr. DE COSMOS himself, if he would be at the pains to take a *sober* second thought, will admit that Victoria wants all the railways she can get. As has just been said the tendency of railways is to reach the coast. The Northern Pacific is already at Gray's Harbor, and will shortly be on the Straits of Juan de Fuca. The Canadian has not been content to stop at Vancouver, but has practically tapped the Sound cities from Blaine to Tacoma. What will be the result when the Northern Pacific reaches Port Crescent and Port Angeles; when the Canadian Pacific perfects its arrangements on the Sound, and when the Great Northern shall have tapped Anacortes? It means just this: Victoria's commercial environment will be confined to Vancouver Island, and a dozen or so northern canneries. Deep water ships will not come to Victoria to have their cargoes trans-shipped to the mainland, there to be handled again. Shippers cannot stand the expense of handling freight over and over again. Competition is too close. What Victoria wants, therefore, is railway communication from the north and from the south. She should connect with the Canadian and with the Great Northern by the Saanich route, and with the Northern Pacific by the Beechy bay route. With these lines running into Victoria she stands a chance of becoming a great commercial emporium. She is handier for deep water ships than any of the Sound cities; she is practically as convenient for the trans-Pacific trade as Port Angeles and Port Crescent, and she has a better harbor than either.

In so far as the projectors of the Saanich railway are concerned they have been tried in the balance and found wanting. Their project bids fair so far as ordinary vision can see to, die still-born. The philosophy, therefore, of an outlet for Victoria to the States, via Port Crescent, is apparent, and it may be presumed that should the scheme mature, the effect would be to rouse the Saanich railway people from their lethargy, and the Canadian, perhaps, instead of opposing that enterprise, would lend it a helping hand. At all events, a railway outlet for Victoria to the South is an experiment worth trying. Tourists would find it extremely convenient to step aboard Pullman's in Victoria, from whence they need not emerge until they have reached their destination, whether it be New York or San Francisco.

AN EXPORT TAX.

Mr. KELLIE will probably withdraw his resolution praying that an export tax be clapped on the raw mineral products of Kootenay. It is not the fault of the Americans that there are no smelters in Kootenay, and a home smelter, protected by an export tax, would scarcely prove a boon to the Kootenayites. The effect of a home smelter, protected by an export tax, would be, that the miner would still have to pay a good round sum for the reduction of his ore. To illustrate, we will suppose that it costs $5 in the States to smelt $100 worth of ore; and that, in addition, it costs $5 to get the ore to the smelter. Now, if we add an export duty of 20 per cent., the cost of marketing the ore is raised to $30, or, in other words, for every $100 worth of ore shipped from Kootenay the miner will realize only $70. On the other hand, a home smelter goes into operation. This smelter can afford to reduce ore for $5 per $100 worth, the same as the American smelter. But will it be done? No! The home smelter will figure on the cost of reducing the ore on the American side including cost of transport, and to these features it will add the 20 per cent export tax, and the result will be that instead of reducing the ore for $5 per $100 worth, it will demand $20, and possibly, even, $25 per $100 worth. Smelting companies as well as other kinds of business organizations are in the habit of charging all they can get for their services, and no smelting company in Kootenay would fail to take advantage of the export tax. If it could be depended upon that the home smelter would smelt ore less the 20 per cent. duty, the export tax might be endorsed as a means of building up a home industry. But this building up of home industries by methods which virtually amount to a direct tax on the producer, which, in the case in question, would make the smelting company richer and the miner poorer, is not what is wanted in British Columbia, and particularly in Kootenay. Furthermore, if Kootenay is the Golconda that it is represented to be, a smelter should be a natural consequence.

The Kootenay Miner, published on the spot, and which should be able to speak intelligently, does not favor the export tax. Says the Miner:

The bulk of the lead ores in the Kootenay Lake country run from 20 to 60 per cent. in lead and carry from $10 to $50 in silver to the ton. The duty on such ores, if shipped to the United States for reduction, would amount to from $6 to $18 a ton—an amount that will prevent any large shipments being made. Again, there are ores in British Columbia that cannot be successfully treated at any reduction works likely to be erected in British Columbia in the near future, and their mining would only be handicapped by subjecting them to an export duty.

If the mining industry is to be developed in the near future, it should not be hampered with restrictions and duties that only tend to befog capitalists seeking investments. Liberal bounses to aid the erection of reduction works at points where the ore supply is in sight is what is needed, not export duties on ore. Railways will also do more to build reduction works in British Columbia than export duties. The mining industry will get along all right if allowed half a chance to stand on its own legs.

So much for the situation in Kootenay and it is to be hoped that the House will heed it.

HOW THE GOVERNMENT GOES BACK ON ITSELF.

The Government introduced an act to amend the assessment act. It is recommended to the house by the Lieut.-Governor. The bill provides for the imposition of taxes upon places of worship, and upon land held by religious institutions. It is also proposed to tax the property used by any charitable, philanthropic or provident association, or for any charitable institution that has for its object either in whole or in part the maintenance and education of destitute children. The Lieut.-Governor's message is considered in committee of the whole, and after some opposition is reported to the house, immediately following which, the bill is introduced to the house and is referred to the committee of the whole. The Finance Minister next proposes amendments to the effect that places of public worship and buildings and improvements upon property held by charitable, philanthropic and provident associations be exempt from the operation of the bill thus reversing the policy of the government, as set forth in the Lieut.-Governor's message, which, be it remembered, had been twice recommended by the executive to the legislature in session, and agreed to by the majority led by the Premier.

It is laid down as a fundamental principle of responsible government that the ministers must act unitedly in supporting a Government measure; that if any minister cannot do so the only honorable course open to him is to resign. TODD's parliamentary government enunciates the principle that the minority in the Cabinet are bound to assist in giving effect to the conclusions arrived at by the majority, or else retire from office; that it is not allowable for a cabinet minister to oppose the measures of the Government, to shrink from an unqualified responsibility in respect to the same, to refrain from assisting his colleagues in the advocacy of their particular measures in Parliament, or to omit the performance of of any administrative act which may be necessary to carry out a decision of the Government, even though he may not be a consenting party. A minister who infringes any one of these rules is bound to tender his resignati[illegible] essence of responsible govern[illegible] mutual responsibility. Minis[illegible] concurring with the majority a[illegible] to resign.

The Assessment Act this sess[illegible] exemplification of the utter [illegible] of the Government to lead in th[illegible] lature. The bill has been twi[illegible] duced by message. REQUEST FROM SIR ROBT. BALL'S AUTHOR OF STARLAND.

TO THE EDITOR:—I shall be glad if you will kindly give me the opportunity of inviting the co-operation of your readers in advancing our knowledge of an important branch of science. I am collecting facts with regard to the occurrence of great luminous meteors or fire-balls. I shall be extremely obliged to careful observers who will send me information of such phenomena that they may be fortunate enough to witness. Such help as may come from distant parts of the globe will be specially acceptable. A general description of these interesting objects may be found in my book called Starland (Cassell & Co.). It is true that this little volume is mainly intended for beginners who want to learn something about the stars. Those willing to aid me in the way indicated will, however, find in Starland sufficient guidance. It is therefore not necessary to trouble you with further detail. I remain, yours truly, ROBERT S. BALL,

(Royal Astronomer of Ireland.)

THOROUGHBRED STALLION

"KISBER"

will make the season of 1891 at the Victoria Jockey Club Race Track, Victoria.

Kisber by imp. Billet (sire of Volturno, Miss Woodford—2 mile heats, 3.32, 3.31), best on record—Lizzie S. Raceland, etc.) by Volt geer (winner of Derby and St. Leger) and sire of Vidette (winner of 2000 guineas), sire of Gardevisure (winner of Cambridgeshire), Speculum (winner of City and Suburban), Galopin (winner of Derby and sire of Bonnie Scotland, Gallinaria, King Galop, etc.) out of Miss Knight by imp. Knight of St. George (winner of St. Leger), by Irish Birdcatcher, second dam Evelyn, by American Eclipse (sire of Medoc, Zenith, Lady Relief, Gano Goliah, Mungo, Florianthe, Counterpiot, Kenmouth, Eclipse, etc.) 3rd dam (Hanna Marie, by Gohanna. Further see Bruce's Stud Book, or apply to the undersigned.

DESCRIPTION.

Kisber is a handsome brown bay, 15.3½ hands high—a well formed and finely finished horse, with plenty of bone and excellent action, possessing a perfect temper, intelligent, level headed and game. Backed with three crosses of stout Whitebone blood through Sir Hercules and Touchstone. An analysis of his blood lines shows not a single cross not noted for speed and endurance.

TERMS FOR 1891.

$35 for the season payable at time of service with privilege of return in season of 1892 in event of mare not proving in foal and not having changed owners.

KISBER STAKES—OWNER'S OFFER.

A stake of $300, with $10 entrance fee to be added to stake (upon condition that 25 mares be bred to Kisber on above terms this season) to be run for in 1894—open to 3 year olds, the get of Kisber—stake divided, 70% to 1st, 30% to 2nd horse—3 furlong dash—weight and date of race announced later.

NOTE—The winner of any Stallion Produce Stakes not barred from the Queen's Plate and Derby.

A SCREAMING FARCE.

The Meeting Called by Hon. Amor De Cosmos Becomes a Pantomime.

Pursuant to a notice of a public meeting to be held in the Lyceum, advertised by Hon. Amor De Cosmos, to discuss the financial state of Victoria, about 150 citizens gathered at 8 o'clock last night.

Mr. B. W. Pearse was called to the chair, Mr. R. Finlayson and ex-mayor Redfern with Mr. De Cosmos, having seats on the platform. The fun commenced by Mr. De Cosmos assuming the perpendicular, and starting off on a rambling and incoherent babbling of which nothing could be made, interrupted by cries and groans. This was kept up for a few minutes when Mayor Grant and several of the aldermen entered the hall and a grand outburst of applause greeted them with cries of "Grant," "Grant."

Mr. De Cosmos continuing, said that he did not treat any man with more dignity because he happened to be clothed with the authority vested by the people. (Hisses and groans.) The speaker said he did not mind the musical hiss, but he would ask the chairman to invite several more gentlemen to the platform.

In response to the invitation Mayor Grant and Mr. Graham ascended the platform.

Mr. De Cosmos continuing, said the object of the meeting was to protest against Victoria being run by a few men, mostly nobodies, among them John Grant.

Yells and laughter rent the air, whereupon the Mayor came to the front and asked that those present not in accord with the principles of Mr. De Cosmos, to please keep quiet for a moment. Here Mr. De Cosmos came alongside of the mayor and wildly waving his arms said something incoherent. The yells and cries here were deafening, and the Mayor declining to identify himself longer with the platform left it amid cheers.

Mr. De Cosmos then in a very thick and husky voice said that now Mr. Grant had gone the meeting would be gone on with. He boasted of having worsted and defeated the corporation of Victoria for the last three years. He had won and he would win. He did not care a snap for anybody, and commenced to snap his fingers.

This was the signal for a great snapping of fingers all over the hall, which disturbed the speaker to such an extent that his already disjointed utterance became totally unreportable.

Mr. De Cosmos then produced a book, and tried to read it. Finding he could not do so without his "specs" he commenced a hunt for them, the necessary articles all the time being across his forehead.

This simply drove the audience wild with laughter, and made a perfect pandemonium, which culminated when the absent-minded gentleman at last discovered where his vision-helpers were.

It was only too painfully apparent, however, that a more powerful magnifying glass was necessary to help out the vision of Mr. DeCosmos, and a large reading glass was procured. This added fuel to the uproar, and it was in vain that the speaker made an effort to be heard.

Mr. De Cosmos shouted "order," and started for the front of the platform, and in stepping down lost his equilibrium. Stepping over the railing, he proceeded toward the door and marching up to Mr. Pat Hickey said "You are an American: I can prove it."

The absurdity of the situation was recognized by Messrs. W. A. Robertson and S. Duck, who moved an adjournment. On the motion being put by the chair, it was carried, and the audience dispersed.

SPORTING INTELLIGENCE.

Matters of Interest Going Forward in the Sporting World, Here and Elsewhere.

M'AULIFFE CAN'T FIGHT FARRELL.

NEW YORK, March 25.—Billy Madden, backer of Joe McAuliffe, who was scheduled to fight Pat Farrell of Pittsburg next Sunday, called at the Police Gazette office to-day and declared the fight off, McAuliffe having broken the large bone of his left hand in his fight with Jim Daley at Harrisburg last Thursday. A communication was at once sent to Daly, who responded agreeing to fight Farrell for $1,000 purse on April 10 either in Troy, New Jersey or Pennsylvania.

PRITCHARD TO FIGHT JIM SMITH.

NEW YORK, March 25.—A special cable to the Police Gazette, states that Jem Smith and Ted Pritchard have posted £100 to fight for £500 a side and the championship of England. The men will sign articles to-morrow. Pritchard is the lightest pugilist since Tom Sayres to fight for a championship.

THE AUSTRALIAN CHAMPIONS.

The exhibition at the Victoria last evening was largely attended, and was well appreciated. The first event on the list was a set-to between Buntin and Ryan, who sparred four rounds, and made some capital points. They were followed by Albert and Ward, who in the course of three squarely sparred rounds showed that there was some of the right kind of material in them. Thos. McAndrews had four rounds with Abe Willes, the champion bantam weight of Australia, and made some clear points. These five are all local boys, pupils of Prof. Foster, and they acquitted themselves so well as to reflect credit on both themselves and "Bob" Foster. Billy Maber sparred with both Ward and Albert. Of course the event of the evening was a four round match between Jim Hall and Alex McGreggains. Jim strips splendidly, and acts like a charm. Endowed with litheness and activity that would put to envy the lightest of light-weights, he has wonderful power with that broad chest and shoulders, from which the long, iron like arms swing out with the force of a sledge hammer. He is very clever at feinting, and his wind capacity is about equal to his activity and quickness. Both hands are equally useful, and where pretending to let drive with his right, the left will swing up from somewhere below with crashing force.

Robert Foster acted as timekeeper and referee.

IS BOB ONLY A BABY?

Jim Hall, who was here last night, with his manager Joe Harris, has been trying the best a man can to bring about a match with Bob Fitzsimmons, but the latter has seemingly evaded the point at issue. Harris last night repeated what he has said before. He says: "Fitzsimmons has proved such a baby that I won't keep the matter to myself any longer. He is barred out of almost every club except the California. We have called him everything that we can, but epithets like 'coward' and 'baby' don't seem to have any effect, and I am of the opinion he will never fight Hall."

At this juncture Hall said: "You may make this statement: I will fight Fitzsimmons in any club for no purse at all, only side wagers. I don't want to go back without meeting him if I can help it," to which Mr. Harris smilingly nodded assent.

Of course all this sounds well, but Fitzsimmons is not a pigmy, and Hall will have his work fully cut out to beat him. It is doubtful, from a look at Jim Hall at the Victoria last night, whether he has as long a reach as Bob, although in other respects he seems up to the mark.

TO-MORROW'S AMUSEMENTS.

The James Bays and National Baseball Clubs will play at the Hill on Good Friday. This being the first game of the season no fault must be found with the boys if they do happen to make a few misplays. Game will be called at 2:30.

A large number of fishermen will go up to the lakes along the E. & N. to-morrow. There is good fishing at Shawnigan, Cowichan and the smaller streams.

RIFLE ASSOCIATION MEETING.

The adjourned general meeting of the Victoria Rifle Association was held in Flint & Williams' office last evening, when a very satisfactory report of the work done during 1890 was presented. The officers elected for the ensuing year are:—President, Lieut. A. G. Sargison; vice-president, B. Williams; secretary, A. R. Langley; treasurer, F. R. Sargison; committee, W. H. Danby, H. Fleming, J. C. Newbury, J. C. Cornish and F. Wolfenden. The year's shooting will begin with a match for prizes presented by different merchants of the city.

VICTORIA GUN CLUB.

The first regular shoot of the above club will take place to-morrow, Good Friday, at the Victoria Driving Park. Shooting will commence at 10 a.m., and will be kept up during the day. Five Peoria blackbird traps (screened) will be used, and 1000 birds will be shot off. Lunch will be provided for members of the club and visitors by Mr. Stone, the manager of the park, from 12 to 2 p.m.

O'CONNOR ANSWERS TEEMER.

NEW YORK, March 25. — William O'Connor telegraphs from Toronto that he accepts Teemer's challenge to row for $2,500 a side and the championship, and asks the latter to cover a forfeit he has on deposit in the Police Gazette office.

"The Jersey Lily."

Is what Millais christened his famous portrait of that celebrated woman who since became familiarly known to the public by that expressive and appropriate name. In turn she has coupled her fame with that of the most celebrated toilette article in existence, as witness what she says:—

ANGLESEA COTTAGE, L.B., July 2

Gentlemen,—Although it is very unusual for me to use any lotions or washes, still in answer to your request I have tried Wisdom's Violet Cream and Roberine. The former I consider especially efficacious in cases of roughness of the skin, and I have been using it every day for the last fortnight. I have found the Roberine an excellent preparation in cases of tan, sunburn, etc., caused by exposure to March winds and a July sky.

Yours faithfully,
LILLIE LANGTRY.

THE CRY OF MILLIONS!

OH, MY BACK!

STOP IT NOW,

SOON IT WILL BE TOO LATE.

I have been troubled many years with disease of the kidneys and have tried many different remedies and have sought aid from different physicians without relief. About the 15th of April I was suffering from a very violent attack that almost prostrated me in such a manner that I was best over. When I sat down it was almost impossible for me to get up alone, or to put on my clothes, when kind Providence sent Dr. Henley, with the DRAGON KIDNEY TEA, to my hotel. I immediately commenced using the tea. It had an almost miraculous effect, and to the astonishment of all the guests at the hotel, in a few days, I am happy to state, that I was a new man. I will recommend the tea to all afflicted as I have been.

MARCHANT, FUTCHER & CO

30 FORT STREET VICTORIA.

WHITE ROCK, B.C.

This Townsite is situated on Semiahmoo Bay, and is the only deep water seaport between the International Boundary Line and Vancouver, B. C.

It will probably be the Mainland starting-point of the Victoria, Saanich & New Westminster Railway. It is now the outlet for the finest agricultural district in British Columbia.

The C.P.R. has made a survey of a line from Vancouver direct to this point. The Royal City Planing Mills Company has built a substantial wharf here, and has established a lumber yard, which supplies the farmers of this district.

A handsome hotel has been erected and building is going on rapidly.

Several influential and far-sighted corporations have acquired large tracts of land surrounding this Townsite.

Water front lots can now be obtained at low prices.

To introduce this property, we are placing one block of lots on the market for disposal by monthly instalments at nominal figures.

CITY AND PROVINCIAL.

AROUND THE POLICE COURT.

Items Gathered from the Calendars at the City's Temple of Justice.

The clerk of the police court has been supplied with a new desk raised on a platform, which besides being an improvement to the appearance of the court room is also much more convenient than the old one.

The Chinese wash house men who refused to pay the provincial tax, have resigned themselves to their fate and paid the amount due and also the cost of prosecuting.

The Salvation Army have two women of their corps stationed at the police court to try and lead the women who fall into the police nets on to the right path.

The fair sex played the most prominent part at his honor's levee this morning, there being in all seven of them up for hearing. Four Indian women for engaging in a potlam were fined $5 and $1 costs each and a white woman of respectable appearance and the mother of several children was taxed the same amount for the same offence. After a little talking the members of the Salvation Army induced her that she was on the wrong track and she promised to do better.

A keeper and an inmate of a bawdy house were fined $50 and $10 respectively. Three white men, all drunks, made up the list of men who appeared.

BOARD OF ALDERMEN.

Very Short Session of the Civic Rulers—Adjournment.

The regular meeting of the board of aldermen was held last evening at the city hall. Present, Mayor Grant, in the chair, and all the aldermen but Messrs. Coughlan and Hunter. Routine business being complete, the mayor said that in view of the fact that a public meeting had been called by Mr. Amor re Cosmos, which he understood was for the discussion of the financial standing of the city, and as he, the mayor, wished to attend the meeting, he would ask Ald. McKillican to take the chair. Ald. Robertson suggested that as there was very little work before the board that it adjourn and attend the meeting in a body.

Clerk Dowler said that a letter from R. P. Rithet concerning the allegations of one J. G. Macdonald, was before the board. It was ordered read, as follows:

SAN FRANCISCO, March 18, 1891.

To His Worship the Mayor and Aldermen of Victoria, B. C.

GENTLEMEN,—By the steamer this morning, I received the Daily Colonist of the 12th inst., containing the affidavit of J. G. McDonald, in which my name is mentioned several times. I am at a loss to understand what object that party had in making such an extraordinary affidavit; he is entirely unknown to me, and as regards the contents of the affidavit, so far as the statements therein refer to me, I can only say that they are false in every particular. At the time mentioned in the affidavit, December, 1889, I was not in Victoria, but in San Francisco. I do not think it necessary to take up your valuable time in going into any other details, as I am sure the general denial will be sufficient.

I am, Gentlemen, your obedient servant. (Signed) R. P. RITHET.

The communication was tabled.

A NEW HORSE.

The street committee's report was read. Among other things it asked that a horse be purchased for street work.—Received and adopted.

PARK COMMITTEE REPORT.

The report of the park commissioners was submitted. It recommended that the Victoria Cricket Club be allowed to use that portion of the park near the horticultural grounds, and that Dallas road be restored to the jurisdiction of the street committee.

This called forth considerable opposition from the street committee, who evidently did not care to shoulder the responsibility of looking after the road. The discussion ended by an explanation of the mayor, which showed the boundaries of the park, he suggesting that the matter be laid over for further argument.

The board then adjourned, it being 9 p. m., until to-morrow evening.

Good Friday.

To-morrow will be Good Friday, and a holiday. The regular issue of the dailies, in accordance with custom, will not, therefore, appear to-morrow evening.

In Darkest Gloom.

Millions of men and women are in the dark gloom of disease. The way out is by using Burdock Blood Bitters, the tried and sure remedy for dyspepsia, biliousness, constipation, scrofula, bad blood, and all diseases of the stomach, liver, bowels, and blood. *

Business Looking Up.

Merchants and business men speak cheerfully and cheerfully of the prospects of trade this spring. They say that "things are looking bright" for general commerce. The cause they all attribute this to, is the fact that British Columbia is becoming better known outside, and is winning the confidence both investors and traders.

Followed the Crease.

Everton—For heaven's sake old man what are you doing in this part of the city?

Ashaway—When I started for the store this morning I didn't notice that the blamed tailor had creased my trousers wrong and I've walked four miles out of my way.

Everton—Go to McCallum & Woods, over Douglas and View streets here—for all work in the tailoring line and avoid all such trouble. New spring goods coming in every day by express and freight.

The Hebrew Congregation.

The Hebrew Congregation Emanuel of this city has succeeded in securing the services of Rabbi S. Philo, of San Francisco, permanently, for one year. The reverend gentleman came here highly recommended as an eloquent speaker and profound scholar, a graduate of the Breslauer (Germany) college. Services will be held at the temple this evening at 8 o'clock, and every Saturday morning at 10 o'clock. Lectures will be delivered by the Rabbi every Friday evening at 8:30. Everybody will be allowed seats free. The subject for this Friday evening's lecture will be, "Does knowledge promote faith."

An Accident Policy.

The best Accident Policy is to keep Hagyard's Yellow Oil on hand. As a pain cure it is unrivalled, while for croup, sore throat, quinsy, rheumatism, neuralgia, etc., its results are often almost magical. Used externally and internally. Price 25c. *

The Conversaziones.

The conversaziones given by the ladies of the R. E. Church are so well known now that a mere mention that they are to take place, soon spreads among the lovers of a sociable time and they attend. Last evening's programme was no exception to those usually presented, and a very pleasant time was spent.

Agency.

Allan, Anchor, Cunard, Compagnie General, Guion, Hamburg-American, Inman, North German Lloyd and White Star Lines. Berths secured in advance by telegraph free of charge. Orders issued for pre-paid passages from Great Britain or the continent through to destination at lowest rates. Hall, Goepel & Co., fire, life and marine insurance agents, 100 Government st. *

A Good Investment.

The Williams block on Broad street is now all but finished, but there is not even an office to be had in it. All the available space has been leased some time ago. The German Society (Deutche Harmonie) has leased the two upper flats, and all the remainder of the premises, with the exception of the portion set aside for the bindery, has been let to various parties. Bowker & Co., the real estate men, will occupy premises on the ground floor.

A Railway Gentleman Speaks.

"For many years past," says a gentleman employed by one of our largest railway institutions, "I have lost considerable time, and suffered from fever and general weakness. My illness generally came on about spring time—a time joyous to many, but always dreaded by me. About the end of the winter of 1890, I was advised by one of my office companions to use Paine's Celery Compound, which I was assured would cleanse my system, and build it up so that I would safely pass through the season and avoid my usual time of sickness. I procured the Compound at once from my druggist, and received an assurance from him which corroborated my friend's statement. I used, before spring was over, four bottles, which made me a different man. I increased in weight, my appetite was full and natural, and my physical and mental activity was greater than ever before. This spring I intend to use more of Paine's Celery Compound, and would advise all my fellow men to do likewise if they value good health, and wish to avoid sickness."

Surely this convincing testimony will have some weight with all who wish to be thoroughly cleansed and made strong for the extreme hot weather of the coming summer.

Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is heredited and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. In its preparation, its medicinal merit, and the wonderful cures it accomplishes Hood's Sarsaparilla is **Peculiar to Itself.** Thousands testify to its success, and the best advertising Hood's Sarsaparilla receives is the hearty endorsement of its army of friends. Every testimonial we publish, and every statement we make on behalf of Hood's Sarsaparilla may be relied upon as strictly true in every respect.

If you need a good blood purifier or building up medicine, be sure to take Hood's Sarsaparilla. Further information and statements of cures sent free to all who address us as below.

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL

(House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power, unequalled by any other Bituminous Gas Coal in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

EIGHT CAR LOADS.

Tons of Blankets Arriving—A Heavy Machine For the Dunsmuirs.

The first part of perhaps the largest consignment of blankets that has ever come to the Pacific coast for one firm arrived by the steamer City of Kingston last evening, having come from Toronto via the N.P.R. for Turner, Beeton & Co., of this city. The whole consignment consists of 30,000 pounds, gross weight, which it took two of the company's large cars to convey. This, with other signs, shows the solidity of Victoria firms, for as business men know, it requires solid firms to buy a consignment like the above at the end of a season, as the goods will now have to be stored until the fall.

Another big contract that the N.P.R. has is the bringing from Nelsonville, Ohio, of a large hoisting machine for Messrs. Dunsmuir & Co., to be used at the Union collieries, Comox. This consignment will take six large cars to bring it across to Tacoma, and the Kingston will be pretty well loaded when she gets it on board. One of the engines among the lot weighs 45 tons.

Removal.

Mr. Geo. S. Russell has removed his barber shop to 42 Yates street, next to W. J. Jeffrees. t.f.

Will be Here To-Night.

Paul Schulze, general land agent, and other representatives of the N. P. R. who were expected over last night did not arrive but they will be over on the Kingston this evening. They will call upon the civic authorities either to-night or to-morrow in connection with the bonus for bringing their road here.

Should be Loosened.

A cough should be loosened at once and all irritation allayed. To do this nothing excels Hagyard's Pectoral Balsam. Obstinate coughs yield at once to its expectorant, soothing and healing properties, which loosens phlegm and and allay irritation.

Railway for Angeles.

There has been deposited with the auditor at Seattle, articles of incorporation of the Port Angeles and Southern Railway company, with a capital of $2,500,000 divided into 25,000 shares of $100 each. The five trustees elected to manage the affairs of the company are C. E. Jaillette, of Port Angeles, and Lauren Ingels, N. M. Slugleton, W. D. Williams and F. S. deWolfe, of Seattle. The route of the road will be from Port Angeles Bay to Port discovery and Port Townsend.

Trout! Trout!

"Morton House," Shawnigan Lake, Good Friday, 27th inst. Special arrangements have been made for the entertainment of guests on the above day. A first-class colored cook has been engaged, and the bill of fare will be complete in every detail.

As trout fishing in the waters of the lake is particularly good just now there will be plenty of sport for all. Dinner from 12 noon until evening.

Their Easter Holidays.

The Easter holidays are not long ones but they are nevertheless welcomed by both teachers and scholars of the public school who will go home to-night not to return to their studies until a week from to-morrow. A number of the teachers intend go away for a week to recuperate after their tedious work. A party consisting of Miss Cameron, Miss A. G. Cameron, Miss Horton, Miss Robertson, Misses Keast and Mrs. Coldwell, will leave for Portland by the City of Kingston to night to spend their holidays in that city.

Fell Through.

The game of football which was to have been engaged in by a team of clerks and a team of law students has fallen through as the latter could not get a sufficient number of men together for the purpose.

Removed.

The agency of the Dominion Building and Loan Association has been removed to 18 Trounce avenue, in the office of Page & McGregor, real estate brokers, opposite the C.P.R. telegraph office. J. W. Winnett, secretary and agent.

Fire Escapes.

Fire escapes are being put up on the Chinese joss house and On Hing's building on Cormorant street. All three-story houses where operatives are employed, or a lodging house, will have to be supplied with an escape, and all four-story buildings will have to be supplied with a standing pipe in addition.

False Friends.

Monday next the above comedy drama will be produced at the Victoria theatre in aid of local charities, very worthy objects, viz., the Protestant Orphans' Home and the Jubilee Hospital. Rehearsals have been very frequent and no trouble will be spared to make a success. It is to be hoped that a crowded house will greet the amateurs, who, in conjunction with Mr. Adderley, have been working very faithfully for the occasion.

VERNON, VERNON

THE TERMINUS OF THE

SHUSWAP & OKANAGAN RAILWAY

Situated in the Heart of the Famous Okanagan Valley.

THE RAILWAY CENTRE OF THE INTERIOR

The Shuswap & Okanagan Railway is now under construction, and will be completed and in Operation to Vernon next Summer, 1891.

The Okanagan & Kootenay Railway Co. obtained a charter (with land grants of 20,000 acres per mile) to construct a railway from Vernon to Sproat's Landing, via the Coldstream Valley and Cherry Creek Mines.

A charter will be applied for at the next session of the Local Legislature to construct a Railway from Vernon south to the International Boundary, to connect with the American railway system.

This is a great chance to make money, as Vernon, being in the heart of the most extensive agricultural district in the Province, will undoubtedly become a large and flourishing city.

Arrangements have been completed with responsible parties for publishing a good weekly paper at Vernon, to commence business early in the new year. This paper will be circulated by the company in all parts of the world.

A Large Hotel will be erected early next spring, and plans for same are now ready.

PLANS OF TOWN-SITE ARE NOW IN ALL REAL ESTATE OFFICES

A large number of lots have already been sold, and most of these will have buildings erected on them early next year. Special Inducements are offered to builders. See price list. Free sites will be given to parties establishing industries. Financial assistance will also be given to responsible parties engaging in legitimate enterprises.

ADVANCE IN PRICES.

The Company will advance prices of all central lots early next month. Intending purchasers should not delay selecting lots now in order to obtain the benefit of this advance.

Vernon is situated in a pass commanding and making tributary to it the whole of the famous Okanagan Valley and its tributary valleys, the grazing country of the Lower Nicola, the mining camps of Hock Creek, Granite Creek, Keremeos, Okanagan and Monishee Mountain, the placer diggings of Cherry Creek and Siwash Creek. It is impossible to get to any of the above places without first going through Vernan.

The opening of the Shuswap & Okanagan Railway next summer will flood this favored country with land and mining prospectors, &c., and will give a great impetus to the farming, fruit growing, grazing and mining industries. Several important industries are projected and will likely be started in Vernon next year.

The best advice we can give intending purchasers is to go and see for yourself. The C.P.R. to Sicamous, Stage from Sicamous to Vernon. Leave Vancouver on Mondays or Fridays, arrive Vernon Tuesday or Friday evening.

Coming, Coming, Coming! What? A Garden of Eden

The choicest spot anywhere around Victoria to make a home is undoubtedly in the lovely valley of Cedar Hill. FIR GROVE is situated between the Mount Tolmie and Cedar Hill Roads, with a frontage on both, within one mile from the city. The land is all planted with the choicest varieties of apples, pears, plums and cherries, and, as is well known, Mr. Child has expended a large amount of money and care in the planting of the trees. The ground has all been well under-drained, the soil is of the richest, and for gardening purposes no finer spot exists. The property is now in the hands of surveyors, and will be on the market in the course of a few days. As negotiations are in progress to extend the electric railway past this property, now is the time to buy, as prices will naturally advance with the advent of the railway.
